Pre-Bid Meeting Minutes
March 27, 2012

Marvin Barnaby, Project Engineer, opened the meeting at approximately 10:00 a.m. on Tuesday, March 27, 2012. Marvin then read the new bidding process.

NEW MANDATORY REQUIREMENT: POTENTIAL BIDDERS MUST REGISTER WITH THE EVENT CONTACT PERSON NAMED IN THE BID EVENT DOCUMENT AT LEAST 24 HOURS BEFORE THE OFFICIAL FINISH DATE AND TIME.

Due to State of Kansas SMART Strategic Sourcing System requirements, any bidder with an interest in bidding on any State of Kansas SOURCING EVENT must register with the Division of Purchases at least 24 hours before the Bid Event official finish date and time. If you fail to register in a timely fashion, your bid may be rejected in its entirety.

EXCEPTION: If you have received a Bid Event Document with your company's name in the upper right hand corner of the document, your company has already been invited to the bid event. If you are not a registered bidder/vendor with the state of Kansas you must register as a bidder and request official invitation at least 24 hours before the Bid Event official finish date and time. To register as a bidder visit the following web site:

<http://www.da.ks.gov/purch/BidderRegistration.doc>, on this website you will find the Code 70131703 Land Reclamation to get Bids from our Office

Bidders (and their subcontractors) are expected to submit a current Tax Clearance Certificate with every event response.

The attendees were advised the bids will be due in Topeka on Tuesday, May 1, 2012 at 2:00 p.m., and the last day for questions will be Thursday, April 26, 2012 and all questions must be received by 1:00 p.m. on that day. The attendees were requested to fill out the sign-up sheet and leave a business card if they had not been there before so the SMS can get any addendums to them. Quote# for the Brutus Marsh Wetland Mitigation Project Contract is EVT0001294

Marvin then introduced the Surface Mining Staff present: Murray Balk, Section Chief; Randy Johnson, Inspection Supervisor; Dave Chiappetti, Brian Troglia and Martin O'Brien, Inspectors.

Regarding the Form of Bid on the Department of Administration Website, the Brutus Marsh Specs show on Line Item 10. Temporary Mulch and Line Item 15 Mulching for the Unit, acre needs to be changed to tons.

On the east side of the project we dig a hole take the clay and take it to the west side, where we line an area of about 7 acres. Wildlife and Parks at one time tried to make a wetland on the spoil that won't hold water. On the east side of the project there is a borrow area with 8 foot of clay. We will expand that pit and dig the wetland and put a berm along the east/west county road with extra material (spoil or whatever we have).

On the west side we are building a new wetland. There are benchmarks out there at 887 and we line the clay up to 887 elevation.

Before we put the clay down, we disk the area twice, compact the old spoil and than haul the clay over.

We will have the county close the road, when we are hauling. There is road stone in the job (12,000 cy estimated) and the clay we have to haul.

Question : Does the 12,000 cy in the form of bid include backfilling the borrow pit?

Answer: No it does not. The 12,000 cy is the amount of clay material estimated to line the bottom of the proposed 7 acre wetland to the west. Additional material excavated from the proposed wetland next to the borrow area will be used to fill the pit and construct the berm.

Question: Do we have a contact in Topeka the contractor could call to get on the pre-bid invitation list?

Answer: Chris Howe with the Department of Administration, Phone No. 785-296-2374

Marvin then gave directions to the job site and the meeting adjourned to the field.
